FIRE INSURANCE NOTICES, &c. SOUTHERN PROTECTION INSURANCE COMPANY. ALEXANDRIA, VIRGINIA.

CAPITAL OVER 350,000 DOLLARS, AND CONSTANTLY INCREASING. The Charter of this Company offers more favorable advantages to the farmer and others, than any Company chartered in the State, by insuring with or without a premium note. If the applicant prefer, he can pay the full amount of the premium n cash, or by effecting a cash insurance for two years, the insured saves one-eighth of the amount he would otherwise have to pay; or by becoming a member, and giving a small premium note, the in-sured saves nearly one-half of the amount charged by Stock Companies, when insuring from year to year. This is the advantage resulting from the combination of the CASH AND MUTUAL PRINCIPLE.

This Company commenced issuing Policies against loss or damage by fire, on the 13th day of March, 1854, since which time over seven thousand seven hundred persons have insured and become numbers of the Company, and over seventy thousand dollars have been paid for losses. Having nereased our business during the past year, we feel grateful for the liberal patronage bestowed upon the Company thus far, and for its flattering prospeets of future usefulness. The Directors hope and believe, that, by prudence, caution, and a rigid system of economy, they will establish for this ompany a reputation for cheapness and safety not surpassed by any Company in the U. States. All differences in settlement of losses, may be determined by three disinterested arbitrators of the County where such loss happened, to be mutually chosen by the insured and the Company.

MISCELLANEOUS READING. TOTICE. We are now receiving a large and VALUE OF A BIT OF KNOWLEDGE The following good story, illustrates the value of a bit of practical information, applied at the right time:

In the plazza before St. Peter's at Rome.

stands the most beautiful obelisk in the world. It was brought from the circus of Nero, where it had lain buried for many ages. It was one entire piece of Egyptian marble, 72 feet high, 12 feet square at the base and 8 feet square at the top, and it is The above, with many other desirable Goods, computed to weigh above 470 tons, and it is supposed to be 3,000 years old. Much engineering skill was required to remove and erect this piece of art; and the celebrated architect, Dominico Fontane, was selected and engaged by Pope Sextus V. to carry out the operation. A pedestal 30 feet high, was built for its reception, and the obelisk brought to its base. Many were the ingenious contrivances prepared for the raising of it to its resting place, all of which excited the deepest interest among the perple. At length everything was in readiness, and a day appointed for the great event. A great multitude assembled to witness the ceremony; and the Pope afraid that the clamor of the people might distract the attention of the architect, issued an edict containing regulations to be kept, and imposing the severest penalties on any one who should during the lifting of the gigantic stone, utter a single word. Amidst suppressed excitement of feelings, and breathless si lence, the splendid monument was gradually selected with the view of introducing the Latest be got further; the tackle was too slack, and Fashions in this vicinity. I invite the Ladies to there seemed to be no other way than to hardly knew how to act, while the silent people were anxiously watching every motion of his features to discover how the problem would be solved. In the crowd was an old British sailor, who saw the difficulty and how to overcome it, and with stentorian lungs he shouted, "Wet the ropes!" The vigilant police pounced on the culprit and lodged him in prison; the architect caught the magic word, he put this proposition in force, and the cheers of the people proclaimed the success of the great undertaking.-Next day the British criminal was solemnly arraigned before his Holiness, his crime was undeniably proved, and the Pope in solemn language pronounced his sentence to bethat he should receive a pension annually during his lifetime!!

These little facts stored up from observation can never do the owner any harm, and may some day be of great utility; and this story only proves the value of remembering small things as well as great ones, for nothing that is useful is too insignificant for man to know, and there is no knowledge that has not its use.
